

MATRIX42
SMARTER WORKSPACE - BETTER LIFE

Matrix42 Physical

The easy way
to manage physical workspaces

Matrix42 Physical simplifies and reduces the costs and effort of managing all your physical workspaces

Simple, cost-effective and proven

3 reasons physical workspace management automation is still essential

1

Windows 10 is here:

Organisations need to migrate easily, quickly and cost-effectively.

2

The rise of the Mac:

A 2014 study by Dimensional Research revealed 66% of businesses were using Macintosh computers.

3

Manual management is history:

IT departments need to automate service requests and change management processes.

Key Features

- Fulfils lean infrastructure requirements
- Broad platform support
- Enterprise App Store (Matrix42 Service Catalog)
- Packaging centre
- Desired state model
- Self-provisioning (ship-to-desk/self-help)
- Automated workspace recovery
- Integrated license-, asset- and contract management
- Integrated Matrix42 Service Desk

Key solutions requirements

- Accelerated provisioning of new operating systems, applications and services.
- Pre-packaged apps and low infrastructure requirements for significant time- and cost savings.
- Management of all your physical devices, regardless of operating system.
- Streamlined management and optimised costs

Matrix42 Physical Workspace Management is best-in-class

Uniquely, Matrix42 Physical integrates compliance functionality and user self-service into the management of all your physical workspaces, creating a best-in-class solution.

Only one

That's the number of solutions you need to manage all your physical workspaces, regardless of operating system, when you use Matrix42 Physical.

Did you know?

Matrix42's packaging centre enables 100% automation through broad packaging support for pre-packaged apps, MSI, VMware ThinApp, Citrix XenApp, Package Robot and script/ Delta-Differential packages.

Matrix42 Physical

Automation of essential physical workspace management tasks

Physical workspace lifecycle management

An employee wants a new application for his Windows, Mac or Linux PC.

Using Matrix42 Physical, the employee can:

- Make a self-service request via the integrated Enterprise App Store (Matrix42 Service Catalog) or native iOS app (Matrix42 iPhone and iPad apps).
- Get approval quickly via the automated communication and approval process.
- Automate the installation of the application without help from IT staff.
- Ensure the application is invoiced correctly and automatically.

Ship-to-desk

A user needs a new desktop computer with all the relevant applications installed as soon as possible.

Matrix42 Physical ensures:

- The user receives a new machine at his desk.
- The correct operating system and applications are installed via the network automatically, within the relevant compliance parameters based on the desired state model.
- All the relevant configurations from the user's old computer are preserved.
- Zero intervention from IT staff is required.

100% automated mass deployment

You need to upgrade the operating system on hundreds of PCs to Windows 10.

Matrix42 Physical:

- Automates and simplifies the deployment process including hardware and software analysis, data backup and driver/operating system installation.
- Automatically saves and reinstalls each user's data and settings.
- Can update hundreds of machines simultaneously with 100% automation.

Take control of your physical workspaces today and register for a live demo.

Your benefits

1 Increased end-user satisfaction and productivity

- Efficient, effective working with fast, flexible and anytime, anywhere access to a personalised workspace with any device.
- Enhanced user satisfaction with IT through fast access to the right applications, whenever they are needed.
- Fast issue resolution through 24/7 support.
- Smoother operations by minimising the service downtime usually associated with hardware and software configuration, installation and updates.

3 Greater business agility through streamlined processes

- Consolidated, efficient physical workspace management with a complete, best-in-class solution from a single provider.
- One solution to manage all Windows, Mac and Linux workspaces.
- Integrated, automated user self-service.
- Drastically reduced compliance fulfilment cost and effort through built-in and automated compliance management.

2 Optimised costs, maximum value

- Free up resources with automated- and self-service workspace management, and integrated compliance fulfilment.
- Shortest route to ROI due to lean infrastructure requirements.
- Significantly lower costs compared with manually migrating to Windows 10.

4 Lower business risk

- Consolidated, efficient physical workspace management with a complete, best-in-class solution from the independent market leader in Germany.
- Innovative and proven technology that minimises the risk of making necessary changes to your IT infrastructure.
- Deep expertise and experience gained through thousands of successful deployments.
